Medicaid's Approach to Improving Quality and Health Outcomes

Kentucky Department for Medicaid
Services

Key Factors

- Collaboration
- Accountability
- Data
- Cost savings

Collaboration

- State Government Agencies
- Medicaid Providers
- Managed Care Organizations
- Advocacy Groups

Accountability

- Cabinet for Health and Family Services
- Medicaid
- Managed Care Organizations
- Providers
- Members

Data

- HEDIS (Health Effectiveness Data and Information Set)
- Data Analytics
- MCO Reporting
- EQRO Reporting

HEDIS Reporting Examples

- Immunizations
- Diabetes
- Behavioral Health
- Pharmacy
- Dental
- Well Child Visits

Challenges and Next Steps

- Improve collaboration across Cabinet agencies
- Expect more accountability
- Data sharing across agencies and how that data is used to improve outcomes
- Revise reports required by MCOs
